For Superintendent of Public Instruction,
JOHN SWETT.

COUNTY NOMINATIONS.

For County Judge,
DAVID W. SPEAR.

TOWNSHIP NOMINATIONS—No. 4.

For Justice of the Peace.....C. J. BROWN
" " " N. R. D. TRAPHAGEN

TOWNSHIP NOMINATIONS—NO. 11.

For Justices of the Peace.....MOSES HEATH,
CHARLES E. OLNEY.

APOLOGY.—This office has been too much astonished and demoralized to get out a full sheet to-day, but think a half will carry bad news enough.

WHAT NEXT?

If any man supposes that the Union party is going to sit down and whine, or mope, or lose much time in pondering the situation, let that man undeceive himself at once. There is a yet greater battle before us and we have the numbers to win it. From present indications we have lost this election by default; the Soreheads have refused to vote or have been led by the Satanic press into the ranks of the Democracy, to find a pure party. They will undoubtedly find more or less than they bargained for, and soon be ready to wheel into rank for the next Presidential election. The Democrats of the South want to run Grant as the Conservative candidate, several of the Rebel papers have already declared for him, and the New York City Republican Committee have named him. He has not yet gone very far with A. J. into the Confederacy, but we shall soon know whether they claim him and will name him as their leader. The Sacramento *Union* says he will have no competitor in the Republican party, and seems to love him as well as the Richmond *Inquirer* does. We think the true men of the Party can find a man acceptable to them in due time. Till then let us buckle on our armor anew, stand by our guns and prepare to put the enemies of man to rout in the next contest.

MAYHEM.—One of the most brutal, savage assaults was committed at Cisco on the evening of the 4th instant that we have ever heard of. The circumstances as we learn them from Capt. Calderwood are as follows: During an argument which took place between a man named Harding and Mr. W M. Rice—who formerly lived at Gold Run where he kept a hotel—high words ensued when Harding, standing upon a box, caught Rice by the face, each hand or the forefingers of each hand extending under Rice's jaws, his thumbs being pressed into Rice's eyes who was forced down upon the sidewalk where Harding succeeded in gouging out one of his eyes and so badly injuring the other as is thought to completely destroy his sight. The whole transaction was done so suddenly that the by standers had no time to interfere before the mischief was completed. This is one of the most savage and brutal assaults that we have ever been called upon to chronicle, and the punishment due to the offender should be meted out to him in a manner as liberal as the commission of the crime is heinous. Harding was arrested and examined before Justice Olney and bail in the sum of $1000 fixed for his appearance.

THE REBUKE.

We are *thoroughly* beaten; because spite, hate and prejudice have been wide awake, while justice and truth have slept. From all that we can now learn, but a small vote has been polled. Fear of the negro and Chinaman has aroused the chivalrous Intelligent Democracy, while many Un-on men, over-confident of victory, have not voted. Democracy has been encouraged by the dissensions in the Union party, and has put forth uncommon efforts. Many Union men deceived by the lies of the independent press, have either not voted, or have thought to rebuke the corruptionists of the party by electing Haight. If the *Union* and *Bulletin* were right, the result is a blessing to the State. The effect of their assaults has begun to appear; when shall we see the end? Men said, if this party is bad enough to nominate and elect so corrupt and dangerous a man as Gorham is said to be, then let it die. Now let us see how much better Democracy will please them. Oh, but they did not mean to defeat the whole ticket! Then they were fools, for kill the head and you kill the whole body. Men who do not know this should never talk politics. The logic is perfectly irresistible. Only a corrupt party will support and honor corrupt men. This party have nominated and will not abandon a bad man, therefore they ought to be beaten. And they have been beaten. We not only lose the State offices for the next four years, but we make it tenfold more difficult to carry the State for the Republican nominee for the Presidency. It puts the machinery of the Government into the hands of men who never scruple to play all the advantages, and who know how to do it. If they have the power they will repeal the Registry law, or alter it to suit their own purposes. Democracy has disguised itself as much as possible to win, but it will soon enough display all its inward blackness. It would love well to restore the old days of shooting, cutting, mobbing and murdering; but it cannot be done. The less insolent and blustering and abusive it is the better it will be for it. If it has learned anything by the war and puts on better manners, it will be greatly for its advantage, if not, then it will be all the easier to rouse the whole Union strength in the next contest.

HOW A TRAITOR WAS RECEIVED BY HIS WIFE.—Colonel Miguel Lopez, the traitor who betrayed the Emperor Maximilian, recently went to Pueblo to visit his wife. His reception was decidedly cold. His wife advanced to meet him, leading their little son by the hand, and addressed him thus: "Sir, here is your son; we cannot cut him in two, take him. You are a base coward and a traitor. You have betrayed your country and your benefactor. From this hour we are strangers, for I shall this day retire to my family. Go."

HE CAN DO IT.—C. B. Plummer, formerly of this place, is playing Yankee parts at the Olympic, in San Francisco.

SUICIDE.—On Saturday morning last, as we learn from the Calaveras *Chronicle*, a Frenchman named Amirest, living in Cliff Gulch, nearly opposite Hutchinson's saloon, committed suicide. As near as we have been able to learn, the following are the particulars of the case: About 6 o'clock on the morning mentioned, the report of a gun fired in the cabin of the deceased was heard and subsequently cries of distress. The neighbors repaired to the scene and breaking in the door of the cabin, found Amirest lying on the floor with the entire lower portion of his face blown off, but still alive. A shot-gun, with both barrels empty, was also discovered, with a string attached to the triggers so as to secure the simultaneous discharge of both barrels when it was pulled. His appearance denoted that he must have placed the muzzles under his chin and then fired the gun by pulling the triggers with his foot. During the absence of his friends in search of assistance, Amirest, not satisfied with the wholesale demolition of his physiognomy, and probably fearful that the wound inflicted would not prove fatal, cut his throat from ear to ear, severing the windpipe but not cutting any of the arteries. To make "assurance doubly sure," he also cut large gashes in his wrists. The services of Dr. Hoerchner were procured as soon as possible, and the wounded man removed to the French Hospital. He was beyond medical aid, however, and expired shortly after reaching the hospital. Love, unrequited love, is assigned as the cause of the rash act.

EXCITEMENT IN COLORADO.—A gentleman informs the Chicago *Tribune* that everything in Colorado is in a disorganized condition; that the people of the Territory are in a state of the wildest excitement; that they are universally afraid that they will be murdered if they stay there. They are abandoning their ranches in every direction, not only depopulating the country, but rendering it a matter of considerable difficulty for the mail trains to gather forage. The Indians are reported to be forming in large parties, and scouring the country, and rumors of outrages in every part of the Territory are rife.

A CARD FROM THE
AMERICAN WATCH COMPANY,
Of Waltham, Mass.

This Company beg leave to inform the public that they commenced operations in 185 , and their factory now covers four acres of ground and has cost more than a million dollars, and employs over 700 operatives. They produce 75,000 Watches a year, and make and sell not less than one-half of all the watches sold in the United States.

The difference between their manufacture and the European is briefly this: European are made almost entirely by hand and the result is of necessity a lack of that uniformity, which is indispensable to correct time-keeping. Both the eye and the hand of the most skillful operative must vary. But it is a fact that, except watches of the highest grades, are the product of the cheapest labor of Switzerland and the result is the worthless Americus, Lepines and so-called Patent Levers which soon cost more in attempted repairs, than their original cost. Common workmen, boys and women buy the rough separate parts of these Watches from various factories, polish and put them together, and take to the nearest watch merchant, who stamps and engraves them with any name or brand that may be ordered.

How American Watches are made.

The American Waltham Watch is made by no such uncertain process—and by no such incompetent workmen. All the Company's operations from the selection of the raw materials to the completion of the watch, are carried on under one roof, and under one skilful and competent direction. But the great distinguishing feature of their watches, is the fact that their every part is made by the finest, the most perfect and delicate machinery ever brought to the aid of human industry. Every one of the more than a hundred parts of every watch is made by a machine—and infinitely reproduces every succeeding part with the most unerring accuracy. It was only necessary to make one perfect watch of any particular style and then to adjust the hundred machines necessary to reproduce every part of that watch, and it follows that succeeding watches must be like it.

The Company respectfully submit their watches on their merits only. They claim to make

A Better Article for the Money

by their improved mechanical processes than can be made under the old fashioned hand system. They manufacture watches of every grade, from a good low priced and substantial article to gold silver hunting cases, to the most elaborate; and also ladies' watches in plain gold or the most elaborately and jeweled cases, but the indispensable requisite of all their watches is that they shall be GOOD TIMEKEEPERS. It should be remembered that, except their single lowest grade named the "Home Watch Company, Boston," ALL Watches made by them

ARE FULLY WARRANTED

by a special certificate, and this warrantee is good at all times against the Company or its agents.

JOHNSON'S INTIMACY WITH J. WILKES BOOTH.

We make the following excerpt from the testimony taken before the Congressional Impeachment Committee. It is a portion of the deposition of an officer who was formerly an aid on Andrew Johnson's staff, when Military Governor of Tennessee, but whose name, for obvious reasons, is withheld:

Q. How long after this occurrence before you were in President Johnson's room? At what time of day and on what errand?

A. I called the next afternoon. I cannot state the hour precisely, to inform President Johnson that Stanton had not complied with his request to appoint me a Captain and Commissary of Subsistence of Volunteers, and also to present to him two young sons of Thomas Underwood, of Lafayette, Indiana—one about eight, the other about six years of age.

Q. While you were there were any cards sent up to President Johnson?

A. There was one, and I saw that!

Q. Did President Johnson order the person whose card was sent up to be admitted?

A. He did.

Q. What name was on that card?

A. J. Wilkes Booth.

Q. Was he admitted?

A. He was.

Q. State as near as you can the particulars of the interview between Booth and President Johnson—whether they met as strangers, or in what other manner?

A. From the familiarity of the greeting I should judge they had frequently met and were intimate friends. When he came in they shook hands, with the usual salutation of friends.

Q. How long did you stay?

A. Not over five minutes after Booth came in; I left with the two boys, leaving Booth and President Johnson together.

Q. Had you seen Booth before?

A. Once on the stage—more frequently at the Kirkwood and Metropolitan Hotels; and he had been pointed out to me, though I had never been introduced to him.

Q. Did you see Booth at the Kirkwood House at any time before the assassination, and if so, how long?

A. I saw him, I think, on the 12th of April; he came in; I was sitting there; he inquired at the desk of the office if President Johnson was in; he was told that he was not; he then said he wanted to see him on private business, and went away without further remark.

Q. On the evening of the 4th of March, after the speech of Vice President Johnson in the Senate Chamber, did you call upon him at the Metropolitan? If so, state all the occurrances of that interview, giving all that was said by both of you as exactly as possible.

A. I called there, I think, between five and six, and immediately upon entering the room I said to President Johnson, who was lying upon the bed, "Great God, Governor, you have ruined yourself and the party!" President Johnson raised himself up on his elbow and said: "By God, I will straighten myself out and I make myself felt before the end of my administration. Blair has been here and invited me to go up to his house, which I intend to do on Monday. Burnside, (servant) go down to the bar and get me some whisky." I then left the room.

A MAN TO THINK.—The most valuable business partner is, generally speaking, the man that thinks, provided always that he thinks well. Head work, where there is work for a head, is that which tells to advantage. The following, from a correspondent of the New York *Journal of Commerce*, will be recognized as correct by most business men of large trade and experience:

"I frequently bring to mind the remark of a friend connected many years ago with large transactions in mercantile affairs. The remark was that a great want in our large Wall street banking houses was a man to think for the firm. He exemplified it in this way: 'I have a letter of introduction to Prime, Ward & King; I call at their banking house; I am shown into a room where a member of the firm—Mr. King, if you please—is writing letters. Mr. King puts down his pen, reads my letter, and wishes me anywhere but in his private office, for my coming in has broken the train of thought connected with the letter he was answering. He listens impatiently (in fact, if not in manner)—gets rid of me as soon as he can. Now,' continued my friend, 'the best head to a firm should have nothing to do but to think. Every important transaction should receive his deliberate, well considered approval, all orders should emanate from him, he should have time to talk with those having business propositions to make, and should decide what ought to be accepted and what rejected. To accomplish this, letters to the firm should be opened and brought to his desk, and competent persons should attend to his marginal notes on the letters, or to his instructions. When alone in his private office may find employment in thinking about the business and its prospects, good or bad, of the firm, knowing that his orders and instructions are being carried out by the other members or by the clerks of

THIS CELEBRATED INSTITUTE

has enjoyed on this coast an uninterrupted success of fourteen years, and has become one of the renowned Hospitals of the age. What the celebrated Lock Hospital is to London, and the no less renowned establishment of Ricord is to Paris, this Institute has become to the Pacific coast. The thousands annually received and cured place it in point of number of patients among the very first of the world and the success of its treatment ranks it second to none.

PRIVATE DISEASES IN MALES and IRREGULARITIES IN FEMALES are the great destroyers of health. They insidiously attack the system and gradually undermine and destroy it; they drive the bloom from the cheek, the lustre from the eye, the strength from the frame; they give to the world puny and diseased offspring, and poison, through successive generations the race of man. The marks can be seen in Scrofula, Consumption, Cripples, the Idiotic, the Paralytic, the Insane, etc.

There is no more terrible scourge to the human race than those diseases arising from the contamination of Venereal Poison. The mildest forms, by retreating to the blood, hold over the afflicted one, the destruction that is liable at any moment to fall and blight—to utterly destroy—all earthly hopes.

MERCURY, recognized as the most fatal medical enemy to man, combining with the Venereal, doubles its dangers. Those who have been treated with that pernicious mineral poison are not cured; the disease has only assumed a new form.

Do not be satisfied with partial cures

that leave the poison to crawl through the system, eating its way into the tissues and organs beneath the apparently smooth surface, to burst out in the future with a virulence that will baffle the effects of medicine. WHEN PERFECT CURES can be obtained by consulting a physician whose long practice and thorough investigation into the causes of DISEASES of the URINARY ORGANS enables to determine at once the nature of the disease.

In all cases entrusted to the Doctor's care, PERFECT, SPEEDY and PERMANENT,

Cures are Always Guaranteed.

In syphilis and its adjuncts; Gonnorrhœa and its accompanying diseases, and all diseases of the Bladder, Kidneys, and prostrate; Seminal Weakness Diseases of the Heart and Lungs; Dyspepsia; Indigestion, Impotency; Incipient consumption, and all diseases of the urinary organs, in either sex, cure always warranted. NO PAY REQUIRED, at the

Seminal Weakness or Spermatorrhœa

The young man who experiences that growing weakness in his muscular and mental organization should stop to consider whence it arises. He will find in the weakness of the back, trembling of the limbs, disordered digestion unaccountable failing of the powers of the mind, distaste for society, dread of impending trouble, forebodings of evil, sleeplessness, troubled and lascivious dreams, accompanied by growing dullness, loss of muscular power, and numerous other symptoms of disorganization, the positive traces of that most terrible and destructive of all diseases Seminal Weakness—wasting away his powers, destroying his hope of life and manhood, and dragging him along the broken path of his existence towards a premature and loathsome grave. To him who finds his life dribbling out in the discharge of the vital principle of existence in nocturnal and diurnal emissions, the mere cessation of its appearance brings no assurance of relief.

Marriage, that holy office, the safeguard and hope of manhood, brings to such an one no hope of cure, but adds to his misery in the knowledge that the one who looks to him for so much of her happiness, is a victim to his evil, and an innocent companion of his punishment. He adds to his misery and disorder until hope leaves him. There is no rescue except in proper and skillful treatment. Consult then, at once, a physician whose long practice and careful research has made thoroughly conversant with every phase of the disease. Those who have become the victims of solitary vices, that dreadful, fascinating and destructive habit, which fills thousands of sick-rooms with paralytics and consumptives, and hundreds of untimely graves with its misguided victims, should consult, without a moment's delay, one who will sympathize with their sufferings. To such the Doctor would especially address himself, giving to each and all assurance of a PERFECT and PERMANENT CURE, without hindrance to business, change of diet, or fear of exposure.

Do not forget the address. See below.

Important to Females.

When a female is in trouble or afflicted with disease and requires medical or surgical assistance, the enquiry should be, Where is there a physician who is fully competent to administer relief, and whose respectable standing in society recommends him to the confidence of the community? The Doctor understanding how imperatively necessary these requirements are, feels called upon to interpose, and beg the attention of the afflicted to the fact that he has been a Professor of Obstetrics and Female Diseases for twenty years, and is fully qualified to administer in all cases, both medically and surgically, not in a superficial manner, but in as thorough a manner as years of study and practice—both in hospitals and private families—can make, to save them from the hands of the unqualified, unscrupulous and designing. Therefore families can rely upon him as upon a father. All in affliction can find in him one who will feel and sympathize with and befriend them in trouble—one in whose secrecy the utmost confidence can be placed. Consultation by letter or otherwise, FREE. See address below.

THE CELEBRATED FEMALE REMEDIES, compounded from the private prescription of Dr. Young, have now obtained a most extended popularity, and are correctly viewed to be the safest and surest remedies for the complaints for which they are applied. The constantly accruing testimonials of their efficacy declare them to be pre-eminently superior in their action. No lady should be without these Renovating Agents. None genuine unless procured at this office.

PRIVATE MEDICAL AID.

QUICK CURES AND MODERATE CHARGES.

DR. W. K. DOHERTY'S

Private Medical and Surgical Institute

Sacramento Street, below Montgomery, opposite the Pacific Mail Steamship Company's Office. Private entrance on Leidesdorff street, San Francisco.

Established expressly to afford the afflicted sound and scientific medical aid in the treatment and cure of all Private and Chronic Diseases, cases of Secrecy and all Sexual Disorders.

TO THE AFFLICTED.

DR. W. K. DOHERTY returns his sincere thanks to his numerous patients for their patronage, and would take this opportunity to remind them that he continues to consult at his Institute for the cure of curonic diseases of the Lungs, Liver, Kidneys, Digestive and Genito-Urinary Organs, and all private diseases, viz: Syphilis in all its forms and stages, Seminal Weakness, and all the horrid consequences of self-abuse, Gonorrhœa, Gleet, Strictures, Nocturnal and Diurnal Emissions, Sexual Disability, Diseases of the Back and Loins, Inflammation of the Bladder and Kidneys, etc., etc., and he hopes that his long experience and successful practice will continue to ensure him a share of public patronage. By the practice of many years in Europe and the United States, he is enabled to apply the most efficient and successful remedies against diseases of all kinds. He uses no mercury, charges moderate, treats his patients in a correct and honorable way, and has references from men of known respectability and high standing in society. All parties consulting him by letter or otherwise, will receive the best and gentlest treatment, and inviolate secrecy.

DR. DOHERTY would call attention to the following certificates from two of his patients, who, having fully recovered their health, desire to make known their remedial agent. It will be seen their statements are fully authenticated by a Notary Public.

The welfare of society imperiously demand their publicity and they are given more to warn the unwary than to sound the praise of a Physician, of whom hundreds of like cases can be cited during a practice of more than fifteen years.

DR. DOHERTY—Dear Sir: I feel my health so fully restored, that in common gratitude, I believe I should make you some written acknowledgement for your valuable services—particularly as your fee was small, for the work performed.

I arrived in this city from the East about one year ago, and was then suffering from an old case of Gleet, complicated with Stricture. Being a stranger in this city, and believing those Doctors who gave such positive assurances of success were necessarily the best, (some of whom have a large number of titles,) I placed myself in their charge and continued under their treatment until I had lost nearly all hope and a considerable sum of money.

I wish to say now that you are the sixth Doctor I have employed, and the only one that has ever done me any service. My Gleet is wholly cured, the Stricture is all removed, and my general health is better than it has been for years.

In conclusion, I would say to the many unfortunates who require medical advice, if you have any doubt as to whom you may employ, ask Dr. Doherty for my address and call and see me. (I keep store in this city.) My experience may save you many dollars.

I would also add that in the early stage of my disease I used a large amount of the preparations advertised as an infallible cure for Gonorrhœ, Gleet, etc., but never derived any benefit from them.

I am, Doctor, very truly yours,
L—— H——.

San Francisco, June 16, 1864.

Subscribed and sworn to before me, this 21st day of June, A. D. 1864.

Seminal Weakness—A Sworn to Certificate of a most Remarkable Cure of Spermatorrhœa.

A desire to benefit humanity, and a feeling of gratitude to Dr. W. K. Doherty, alone induces me to make this statement. For many years I have been afflicted with that fearful disease known as "Spermatorrhœa," or Seminal Weakness, the result of self-abuse, but till 1855 experienced but little trouble or inconvenience. In that year however, I had Seminal Weakness to an alarming extent, which was soon followed by the most alarming symptoms as weakness of the back and limbs, pain in the head, dimness of vision, nervousness and general debility. My mind, too, was affected to such an extent as to seriously impair my memory; my ideas were confused and spirits depressed. I was averse to society, had evil forebodings and self-distrust, and was entirely unfitted for any of the duties of life. From 1855 to the summer of 1863, I employed the very best medical talent I could find, and spent several hundred dollars, but in no instance obtained more than temporary relief. I had about concluded there was no relief for me in this world, but seeing Dr. Doherty's advertisement, I thought I would call and see him, as he charged nothing for consultation. I had an interview with Dr. Doherty at his office, in Sacramento street, and his fee for treatment was so reasonable, I determined to try him, though I did not expect much benefit from his treatment. On the 5th of December last I placed myself under his care; in one week I found myself very much improved, and, now, after five weeks' treatment, I feel myself thoroughly cured of all my troubles and in the enjoyment of the best health. Hoping that my experience may be of benefit to others similarly afflicted, I subscribe myself JAMES JOHNSTON.

Subscribed and sworn to before me, this 15th day of January, A. D. 1864.

[L. S.] A. G. RANDALL, Notary Public.

To Females.

When a female is in trouble, or afflicted with diseases as weakness of the back and limbs, pain in the head, dimness of sight, loss of muscular power, palpitation of the heart, irritability, nervousness, extreme urinary difficulties, derangement of digestive functions, general debility, vaginitis, all diseases of the womb, hysteria, sterility, and all other diseases peculiar to females, they should go or write once to the celebrated female doctor, W. K. Doherty, at his Medical Institute, and consult him about their troubles and disease. The Doctor is effecting more cures than any other physician in the State of California. Let no false delicacy prevent you, but apply immediately and save yourself from painful sufferings and premature death. All Married Ladies whose delicate health or other circumstances prevent an increase in their families should write or call at Dr. W. K. Doherty's Medical Institute, and they will receive every possible relief and help. The Doctor's offices are so arranged that he can be consulted without fear of observation

To Correspondents.

Patients residing in any part of the State, however distant, who may desire the opinion and advice of Dr. Doherty on their respective cases, and who think proper to submit a written statement of such, in preference to holding a personal interview, are respectfully assured that their communications will be held most sacred. Dr. Doherty takes this opportunity of observing, that all letters are only opened and replied to by himself, and the latter as promptly as possible.

If the case be fully and candidly described, personal communication will be superseded, as instructions for diet, regimen, and the general treatment of the case (including the remedies), will be forwarded without delay, and in such a manner as to convey no purport of the letter or parcel so transmitted. ☞ Consultation at the office FREE. HOPE FOR THE AFFLICTED.—In another part of this paper will be found the advertisement of the celebrated Institute established by Dr. J. C. YOUNG, in 1850. In this age of deceit and charlatanism it is a boon to the suffering to point out to them where they are sure of obtaining the wished for relief and cure. Under the care of the skillful Doctor the sick and troubled can divest themselves of their burdens of pain; lay aside their cross, and secure health and happiness. If you are sick or in trouble, do not hesitate, Read the advertisement and follow the advice. Do not forget the number or the manner of directing your letters. MEDICAL ADVICE.—DR. WM. K. DOHERTY'S Medical and Surgical Institute is becoming a sine qua non to the welfare of our State and health of our citizens; and his rapidly spreading reputation, although it may excite surprise, is but the signal of skill, and follows as the natural result of such a cause. We are personally acquainted with gentlemen who had suffered for years under chronic disease, and who had taken advantage of every available means that promised relief, but without success, until they called upon Dr. Doherty, who, in an incredibly short space of time, has given them entire relief. It is gratifying to announce this fact, because the Dr. is a gentleman who seeks, not by defamation of others to establish his reputation or ruin of another's fame. The Doctor conducts his own Institute in such a manner must be gratifying to all his patients. He examines, advises, and recommends without charge, and the patient, after hearing his terms for treatment, can accept or reject at pleasure. In no case does the Doctor make a charge unless he effects a cure. This he is able to do, because he feels the confidence which long experience has given, and no doubt the consolation which appertain to that confidence. Persons afflicted with either acute or chronic disease, would do well to consult the Doctor; at all events, it can do no harm, as for consultation he asks no fee; nor does he insist on obedience to his advice unless the patient places himself under his care. His offices are on Sacramento street, opposite the Pacific Mail Steamship office.—News

TOZER would most respectfully inform the sick and afflicted that his MEDICAL INSTITUTE is at the same place, corner of Kearny and Jackson streets, San Francisco, where he has been established for many years, for the cure of special complaints. FRENCH MEDICAL OFFICE.

DR. JULIEN PERRAULT, Doctor of Medicine of the Faculty of Paris, Graduate of the University Queen's College and Physician of the St. John Baptiste Society of San Francisco.

DR. PERRAULT has pleasure to inform patients, and others seeking confidential medical advice, that he can be consulted daily at his office, Armory Hall Building, south-East corner Montgomery and Sacramento streets, San Francisco. Rooms No 9, 10, 11, first floor, up stairs entrance either Montgomery or Sacramento streets.

DR. PERRAULT'S studies have been almost exclusively devoted to the cure of the various forms of Nervous and Physical Debility, the results of injurious habits acquired in youth, which usually terminate in impotence and sterility, and permanently induce all the concomitants of old age. Where a secret infirmity exists involving the happiness of a life and that of others, reason and morality dictate the necessity of its removal, for it is a fact that premature decline of the vigor of manhood, matrimonial unhappiness, compulsory single life, etc., have their sources in causes, the germ of which is planted in early life, and the bitter fruit tasted long afterward; patients, laboring under this complaint, will complain of one or more of the following symptoms: Nocturnal Emissions, Pains in the Back and Head, Weakness of Memory and Sight, Discharge from the Uretha on going to stool or making water, the Intellectual Faculties are Weakened, Loss of Memory ensues, Ideas are clouded and there is a disinclination to attend to business, or even to reading, writing or the society of friends, etc. The patient will probably complain of Dizziness, Vertigo, and that sight and Hearing are Weakened and sleep disturbed by dreams, melancholy, sighing, palpitations, faintings, coughs and slow fever; while some have external rheumatic pain, and numbness of the body. Some of the most common symptons are pimples in the face and aching in different parts of the body. Patients suffering from this disease, should apply immediately to DR. PERRAULT, either in person or by letter as he will guarantee a cure of Seminal Emissions and Impotence in six to eight weeks.

Patients suffering from venereal diseases in any stage Gonorrhœa, Gleet, Strictures, Bubo Ulcers, Cutaneous Eruptions, etc., will be treated successfully. All Syphilitic and Mercurial Taints entirely removed from the system.

DR. PERRAULT'S diplomas are in his office, where patients can see for themselves that they are under the care of a regularly educated practitioner. The best references given if required.

Patients suffering under chronic diseases, can call and examine for themselves. We invite investigation; claim not to know everything, nor to cure everybody, but we do claim that in all cases taken under treatment we fulfil our promises. We particularly request those who have tried this boasted doctor, and that advertised physician, till worn out and discouraged, to call upon us.

Low charges and quick cures.

Ladies suffering from any complaint incidental to their sex, can consult the doctor, with the assurance of relief.

Female Monthly Pills.

DR. PERRAULT is the only agent in California for DR. BIOT'S Female Monthly Pills. Their immense sale has established their reputation as a female remedy, unapproached, and far in advance of every other remedy for suppressions and irregularities, and other obstructions in females. On the receipt of five dollars, these Pills will be sent by mail or express to any part of the world, secure from curiosity or damage.

Persons at a distance can be cured at home, by addressing a letter to DR. PERRAULT, corner of Sacramento and Montgomery streets, Rooms, 10 and 11, or Box 973, P. O., San Francisco, stating the case as minutely as possible, general habits of living, occupation, &c., &c.

APOLOGY.—This office has been too much astonished and demoralized to get out a full sheet to-day, but think a half will carry bad news enough.

WHAT NEXT?

If any man supposes that the Union party is going to sit down and whine, or mope, or lose much time in pondering the situation, let that man undeceive himself at once. There is a yet greater battle before us and we have the numbers to win it. From present indications we have lost this election by default; the Soreheads have refused to vote or have been led by the Satanic press into the ranks of the Democracy, to find a pure party. They will undoubtedly find more or less than they bargained for, and soon be ready to wheel into rank for the next Presidential election. The Democrats of the South want to run Grant as the Conservative candidate, several of the Rebel papers have already declared for him, and the New York City Republican Committee have named him. He has not yet gone very far with A. J. into the Confederacy, but we shall soon know whether they claim him and will name him as their leader. The Sacramento *Union* says he will have no competitor in the Republican party, and seems to love him as well as the Richmond *Inquirer* does. We think the true men of the Party can find a man acceptable to them in due time. Till then let us buckle on our armor anew, stand by our guns and prepare to put the enemies of man to rout in the next contest.

MAYHEM.—One of the most brutal, savage assaults was committed at Cisco on the evening of the 4th instant that we have ever heard of. The circumstances as we learn them from Capt. Calderwood are as follows: During an argument which took place between a man named Harding and Mr. W M. Rice—who formerly lived at Gold Run where he kept a hotel—high words ensued when Harding, standing upon a box, caught Rice by the face, each hand or the forefingers of each hand extending under Rice's jaws, his thumbs being pressed into Rice's eyes who was forced down upon the sidewalk where Harding succeeded in gouging out one of his eyes and so badly injuring the other as is thought to completely destroy his sight. The whole transaction was done so suddenly that the by standers had no time to interfere before the mischief was completed. This is one of the most savage and brutal assaults that we have ever been called upon to chronicle, and the punishment due to the offender should be meted out to him in a manner as liberal as the commission of the crime is heinous. Harding was arrested and examined before Justice Olney and bail in the sum of $1000 fixed for his appearance.

THE RESULT.

We are *thoroughly* beaten; because spite, hate and prejudice have been wide awake, while justice and truth have slept. From all that we can now learn, but a small vote has been polled. Fear of the negro and Chinaman has aroused the chivalrous intelligent Democracy, while many Un on men, over-confident of victory, have not voted. Democracy has been encouraged by the dissensions in the Union party, and has put forth uncommon efforts. Many Union men deceived by the lies of the independent press, have either not voted, or have thought to rebuke the corruptionists of the party by electing Haight. If the *Union* and *Bulletin* were right, the result is a blessing to the State. The effect of their assaults has begun to appear; when shall we see the end? Men said, if this party is bad enough to nominate and elect so corrupt and dangerous a man as Gorham is said to be, then let it die. Now let us see how much better Democracy will please them. Oh, but they did not mean to defeat the whole ticket! Then they were fools, for kill the head and you kill the whole body. Men who do not know this should never talk politics. The logic is perfectly irresistible. Only a corrupt party will support and honor corrupt men. This party have nominated and will not abandon a bad man, therefore they ought to be beaten. And they have been beaten. We not only lose the State offices for the next four years, but we make it tenfold more difficult to carry the State for the Republican nominee for the Presidency. It puts the machinery of the Government into the hands of men who never scruple to play all the advantages, and who know how to do it. If they have the power they will repeal the Registry law, or alter it to suit their own purposes. Democracy has disguised itself as much as possible to win, but it will soon enough display all its Howard blackness. It would love well to restore the old days of shooting, cutting, mobbing and murdering; but it cannot be done. The less insolent and blustering and abusive it is the better it will be for it. If it has learned anything by the war and puts on better manners, it will be greatly for its advantage, if not, then it will be all the easier to rouse the whole Union strength in the next contest.

HOW A TRAITOR WAS RECEIVED BY HIS WIFE.—Colonel Miguel Lopez, the traitor who betrayed the Emperor Maximilian, recently went to Pueblo to visit his wife. His reception was decidedly cold. His wife advanced to meet him, leading their little son by the hand, and addressed him thus: "Sir, here is your son; we cannot cut him in two, take him. You are a base coward and a traitor. You have betrayed your country and your benefactor. From this hour we are strangers, for I shall this day retire to my family. Go."

HE CAN DO IT.—C. B. Plummer, formerly of this place, is playing Yankee parts at the Olympic, in San Francisco.

SUICIDE.—On Saturday morning last, as we learn from the Calaveras *Chronicle*, a Frenchman named Amirest, living in Cliff Gulch, nearly opposite Hutchinson's saloon, committed suicide. As near as we have been able to learn, the following are the particulars of the case: About 6 o'clock on the morning mentioned, the report of a gun fired in the cabin of the deceased was heard and subsequently cries of distress. The neighbors repaired to the scene and breaking in the door of the cabin, found Amirest lying on the floor with the entire lower portion of his face blown off, but still alive. A shot-gun, with both barrels empty, was also discovered, with a string attached to the triggers so as to secure the simultaneous discharge of both barrels when it was pulled. His appearance denoted that he must have placed the muzzles under his chin and then fired the gun by pulling the triggers with his foot. During the absence of his friends in search of assistance, Amirest, not satisfied with the wholesale demolition of his physiognomy, and probably fearful that the wound inflicted would not prove fatal, cut his throat from ear to ear, severing the windpipe but not cutting any of the arteries. To make "assurance doubly sure," he also cut large gashes in his wrists. The services of Dr. Keechner were procured as soon as possible, and the wounded man removed to the French Hospital. He was beyond medical aid, however, and expired shortly after reaching the hospital. Love, unrequited love, is assigned as the cause of the rash act.

EXCITEMENT IN COLORADO.—A gentleman informs The Chicago *Tribune* that everything in Colorado is in a disorganized condition; that the people of the Territory are in a state of the wildest excitement, that they are universally afraid that they will be murdered if they stay there. They are abandoning their ranches in every direction, not only depopulating the country, but rendering it a matter of considerable difficulty for the mail trains to gather forage. The Indians are reported to be forming in large parties, and scouring the country, and rumors of outrages in every part of the Territory are rife.

A CARD FROM THE
AMERICAN WATCH COMPANY,
Of Waltham, Mass.
This Company beg leave to inform the public that they commenced operations in 185[illegible], and their factory now covers four acres of ground and has cost more than a million dollars, and employs over 700 operatives. They produce 75,000 Watches a year, and make and sell not less than one-half of all the watches sold in the United States.
The difference between their manufacture and the European, is briefly this: European are made almost entirely by hand and the result is of necessity a lack of that uniformity, which is indispensable to correct time-keeping. Both the eye and the hand of the most skillful operative must vary. But it is a fact that, except watches of the higher grades, are the product of the cheapest labor of Switzerland and the result is the worthless Anchres Lepines and so-called Patent Levers which soon cost more in attempted repairs, than their original cost. Common workmen, boys and women buy the rough separate parts of these watches from various factories, put them and put them together, and take to the nearest watch merchant, who stamps and engraves them with any name or brand that may be ordered.
How American Watches are made.
The American Waltham Watch is made by no such uncertain process—and by no such incompetent workmen. All the Company's operations from the reception of the raw materials to the completion of the watch, are carried on under one roof, and under one skillful and competent direction. But the great distinguishing feature of their watches, is the fact that their several parts are so [illegible] made by the most perfect and delicate machinery ever brought to the aid of human industry. Every one of the more than a hundred parts of every watch is made by a machine—each infallibly reproduces every succeeding part with the most unerring accuracy. It was only necessary to make one perfect watch of any particular style and then to adjust the hundred machines necessary to reproduce every part of that watch, and it follows that succeeding watches must be like it.
The Company respectfully submit their watches on their merits only. They claim to make
A Better Article for the Money
by their improved mechanical processes than can be made under the old method of hand craftsmanship. They manufacture watches of every grade, from a good low priced and substantial article for silver hunting cases, to the most extraordinary; and also ladies' watches in plain gold or the most elaborate and jeweled cases, but the indispensable requisite of all their watches is that they shall be GOOD TIMEKEEPERS. It should be remembered that, except their single lowest grade named the "Home Watch Company, Boston," ALL Watches made by them
ARE FULLY WARRANTED
by a special certificate, and this warrantee is good at all times against the Company or its agents.

REDINGTON & CO'S COLUMN.

REDINGTON & CO'S

ESSENCE OF JAMAICA GINGER,

THIS valuable preparation, combining in a highly concentrated form the true properties of the ginger root, is the finest cordial for the stomach and carminative.

As a tonic it will be found invaluable to persons recovering from debility, while relieved by fever or other sickness, as when it is desired to restore the system all the growing properties to proceed by wholesome blood, it is equally good, the reactionary chills that follow the use of opium of any kind.

It is also an excellent remedy for females who suffer from difficult menstruation, and for all the painful ailments to the sensitive that so frequently accompany that period.

It gives immediate relief to Nausea, caused by the riding in a railroad car, or by steamboat, or other causes. It is also valuable for external application for Gout, Rheumatism, Neuralgia, etc.

REDINGTON & CO.,

SOLE AGENTS for the PACIFIC COAST.

STOP THAT COUGH!

SOME OF YOU CAN'T, and why? If you, you have only to call at 416 and 418 Front st., and procure a bottle of **DR. WISTAR'S BALSAM OF WILD CHERRY,** which is destined, by its intrinsic merit, to supersede all other preparations. It is not surprising that you should be reluctant to try such trifling discoveries as you have made of late, for the pockets have been filled with the quack nostrums of the day, and certainly the Balsam of Wild Cherry, which for years has been the favorite remedy of the Puritans, and which has been handed down to us as a legacy from the Pilgrim Fathers, should be entitled to the confidence of the people. Call and examine for yourself.
